Dear Mr. Hyde:

This letter extends permission to ISO, IEC and the SEDRIS Organization to normatively reference the following document: US National Geospatial-Intelligence Agency (NGA) *Department of Defense World Geodetic System 1984 - Its Definition and Relationships with Local Geodetic Systems*. Washington: NGA Technical report TR 8350.2.

Approval to incorporate the reference in ISO/IEC 18026 Spatial Reference Model is provided with the understanding that the following statement is applied:

"The following referenced document(s) are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies."

It is understood that the ability to receive announcements regarding updates to this document may be accomplished by registering using the TR 8350.2 form available at the NGA web site.

Sincerely,

THOMAS M. SHEA
Colonel, USA (Ret.)
